

Request and Receive Your Records Online.

Please note, starting on **Monday, August 3, 2026**, Endwell Family Physicians began using an online portal as the primary method for requesting medical records. Our staff has been instructed to direct people seeking medical records to go to this site for requesting records rather than faxing, emailing, or calling.

To access the Request Portal visit:

[AskForRecords.com/endwellfamily](https://askforrecords.com/endwellfamily)

Once on the site, please follow the onscreen instructions. If you have difficulties accessing or using the Request Portal please don't hesitate to contact us at help@recordquest.com or (888)300-7410.

Thank you,
Endwell Family Physicians
